Product Overview

Evolution enjoy a strong reputation in Magnetic Drills as part of the EvolutionSteel range of products which are used in heavy industry. It is because of this unsurpassed experience that Evolution can now offer a professional quality magnetic drill at a price many site workers can easily justify. With so many modern buildings built around steel framework a Magnetic Drill is an essential piece of kit, and of course if the steel has to be joined to timber there simply is no substitute for a Magnetic Drill, simple, easy to use and incredibly accurate. The BORA2800 will drill up to 28mm in diameter through material up to 50mm deep, it is very portable and perfect for use on site. A chuck and adaptor are also included, enabling twist drills to be used as well as cutters.
