

### Model Specification

New and improved for 2009 the EVO180 now features a useful 0-45° bevel tilt increasing the versatility of this robust and durable machine. The EVO180 will cut steel quickly and cleanly, without heat, burrs or coolant and the economy of cut really is incredible, typically a blade can cut up to 80m\* of 6mm steel before a replacement is required. An essential product for any metal fabricator, its compact dimensions and light weight make it ideal for use either on or off site.

\*Evolution Internal Test Data

Motor (230v or 110v ~ 50Hz):	1100W
Maximum Box Cutting Capacity (3mm Wall 90°):	55mm
Maximum Box Section (3mm Wall 45°):	35mm
Maximum Cutting Depth (Solid Steel Plate):	8mm
Speed (No Load):	3500min <sup>-1</sup>
Recommended Maximum Duty Cycle:	30mins
Sound Pressure Level (Under Load):	100.8dB(A)
Vibration Level:	4.3m/s <sup>2</sup>
Weight:	6.5kg
Maximum Dimensions (HxWxL):	280mm x 395mm x 450mm

### Blade Dimensions

Maximum Diameter:	180mm
Bore Diameter:	20mm
Thickness:	2mm

### Standard Equipment

Supplied With Machine: Guide Rail, Operator's Manual, Carry Case

H08100
