

255SMS US Assembly Guide Video

**Warning!**

Diagram illustrating the correct and incorrect methods for blade installation. The correct method (marked with a green checkmark) involves using a screwdriver to push the blade into the housing. The incorrect method (marked with a red X) involves using force to push the blade in.

**Warning!**

Diagram illustrating the bevel lock mechanism. The lock is engaged when the blade is tilted to the desired angle, ensuring it remains in place during use.

**Warning!**

Diagram illustrating the correct and incorrect blade sizes for the saw. The correct size is 1 inch, and the incorrect size is 5/8 inch.

**Warning!**

Diagram illustrating the correct and incorrect blade sizes for the saw. The correct size is 1" Blades, and the incorrect size is 5/8" Blades.
