New 210mm TCT Multipurpose Sliding Mitre Saw Special Edition

STEALTH²¹⁰

evolutionpowertools.com

<p>Utilises patented technology: easily cuts Steel, Aluminium, Wood, concrete with metal and Plastic, using just one blade. Features a 40 degree gearbox, which reduces noise emissions, improving performance and durability.</p>	<p>Advanced performance: cut perfect square joints. When cutting Steel it leaves an instantly workable finish, producing no heat, no burr and virtually no sparks - unlike alternative methods (chisels, shears).</p>	<p>Compound tilt and slide mechanism, for long angled cuts, offers a solution to almost all common applications. Supplied with Multipurpose Blade, Top Clamp, Work Piece Support, End Stop & Manual.</p>	<p>Special edition dust bag included. Other features include a ultra-secure fix clamp, plus side extension which provides essential support for long workpieces.</p>	<p>Special edition laser guidance for optimum accuracy. Other features include a Multipurpose Alloy gear casing which enhances durability in even the most demanding working applications.</p>	<p>Don't forget: 210mm Diamond Blade available - transforms this Mitre Saw in a multi-task cutter. Ideal for roof tiles. Other accessories include the Evolution Mitre Saw Stand, which is strong, compact and portable.</p>
<p>Utiliza la tecnología patente: fácilmente corta Acero, Aluminio, Madera, concreto con una sola hoja. Características: 40º de inclinación, que reduce las emisiones de ruido y mejora el rendimiento y durabilidad.</p>	<p>Rendimiento avanzado: el corte es superior a las sierras de corte normales. Cuando corta acero deja un acabado liso para ser trabajado, no produce calor, rebabas y prácticamente no hay chispas - a diferencia de otros métodos alternativos (martillo, cizalla).</p>	<p>Mecanismo de corte de bisel y de deslizamiento, para cortes angulares largos, ofrece una solución para casi todas las aplicaciones más comunes. Se suministra con: Hoja Multipropósito, abrazadera superior, pieza de trabajo Apoyo, Top Stop y Manual.</p>	<p>Edición especial de la bolsa de polvo incluida. Otras características incluyen una abrazadera superior ultra-segura, además de los extensiones laterales que proporcionan un apoyo esencial para piezas de trabajo largas.</p>	<p>Guía láser para precisión óptima. Otras características en este modelo son: carcasa de engranajes de Aleación de Magnesio la cual incrementa la durabilidad hasta en la más demandante de las tareas que involucra trabajo con metal.</p>	<p>No olvide: El disco diamantado de 210mm. transformando a esta Sierra Mitreadora en una herramienta de propósito para todo. Otros accesorios disponibles: el Estándar de la Serradora, que es fuerte, compacto y portátil.</p>

YOUR RAGE STORIES

Dennis Evers
Full Scale Locomotive

We build props, displays and monuments for theme parks and casinos in cities the world over. I decided to try a RAGE3-DB 10" Multipurpose Double Bevel Sliding Miter Saw.

In short, we were blown away. We ended up making over 100 pipe cuts off the stock blade and went on to use it for the trim as well.

"I wish I had this tool 25 years ago when I started the business."

Amazing, to say the least. It does EXACTLY what it says it will. Fantastic Tool!

ROUND ONE
IRC MONTE CARLO
WILKS&PUGH

BEGIN THEIR ATTACK ON THE IRC SERIES TITLE

evolution®

10 Guy Wilks P. Pugh

PEUGEOT UK

One of the most famous and prestigious rallies in the world, Rallye Monte-Carlo, which turns 100 in 2011, forms the opening round of the IRC for the third successive season. The asphalt event starts in Valence in the heart of France's Ardèche region and finishes in Monaco's harbour front following three full days of gruelling competition on challenging mountain roads, which are often coated in snow and ice.

See all the latest action from the Intercontinental Rally Challenge.

TESCO Big Pitches! PART2

EVOLUTION SURVEYED 100 DIY'ERS CONCERNING:

TECHNICAL SPECIFICATIONS V PRICE & PERFORMANCE

HERE'S WHAT WE FOUND:

76% are confused by spec / 'product jargon' & refer to F&B's & outcomes for key product info.

87% would buy a product with lower spec, as long as it could still perform the job required.

91% compare price before comparing spec & are more influenced by this in their purchasing decisions.

WORKSHOP GUIDE: Evolution table saw

Evolution Fury5 table saw

Mark Baker looks at the brand new Fury5 table saw which is capable of delivering the perfect cut

CONTACT DETAILS:
Price: £19.99 (incl. VAT 20%)
Contact: See above
Tel: 0174 257 1022
Website: www.evo-uk.com

Preparation is important, so ensure to take your time to set up the guide correctly, simply.

It is important to keep yourself safe so make sure you wear eye and ear protection.

Check and adjust the table extensions until they are all aligned and level.

You should always clamp down the piece you are cutting - this will avoid slippage.

Even with easy blade adjustment ways, once adjusted, make a cut on scrap to check it's tight.

The Evolution Fury5 table saw is a great addition to any workshop as it can be used to cut a variety of materials. The table is made of a heavy-duty metal frame and the blade is made of high-speed steel. The table saw is capable of cutting through a variety of materials including wood, metal, and plastic.
